

# Service Technician

We are looking for a responsible, independent, and hands-on Service Technician to join our team. In this role, you will be responsible for ensuring the reliable operation and maintenance of all production systems. You will play a key role in keeping our facilities running efficiently by performing maintenance, troubleshooting breakdowns, and coordinating service activities.

## Key Responsibilities

- Take overall responsibility for the operation and maintenance of production systems, including:
  - Ventilation systems
  - Feeding systems
  - Grain transport systems
  - Slurry systems
  - Production equipment and inventory
- Diagnose and repair system breakdowns and technical faults.
- Perform preventive maintenance and scheduled service activities.
- Plan and coordinate maintenance and service work.
- Order spare parts, grain, and other necessary supplies.
- Monitor stock levels and ensure the availability of critical components.
- Maintain accurate maintenance records and documentation.
- Work independently while coordinating with colleagues, suppliers, and service partners when required.

## Qualifications and Experience

- Proven experience in maintenance, servicing, and troubleshooting of technical or production systems.
- Strong mechanical and electrical skills.
- Ability to work independently and take ownership of responsibilities.
- Excellent problem-solving and organizational skills.
- Reliable, responsible, and proactive approach to work.
- Valid driver's license.
- Good English or Danish (or good English and willing to learn Danish)

## Preferred Qualifications

- Experience with equipment and systems from Big Dutchman, SKOV, or similar manufacturers is a significant advantage.
- Experience within agricultural, livestock, or industrial production environments is highly desirable.

## What We Offer

- Competitive salary and benefits package.
- A varied and challenging technical role with a high degree of responsibility and autonomy.
- Opportunity to work with modern production systems and equipment.
- Ongoing training and professional development opportunities.
- A supportive and collaborative working environment.
